

After a good rain,  
doesn't Knoxville look great .....

Not to the fish!

Learn how you can prevent water pollution  
from entering our creeks, rivers and lakes:

- Do not litter. Dispose of household wastes in correct manner.
- Handle chemicals, automotive fluids and other materials responsibly.
- Volunteer to clean up creeks or participate in other community events by contacting the Keep Knoxville Beautiful organization.
- Report spills, leaks or illicit discharges to the Water Quality Hotline at 215-4147.
